

RMGC Policies & Procedures

Policy #24: COVID Precautions:

If you appear to have COVID-19 symptoms:

Call 111 if you appear to have COVID-19 symptoms and follow the advice given. You will be advised whether you need a test or should isolate.

Full details at this link: <https://deputyprimeminister.gov.mt/en/health-promotion/covid-19/Pages/symptoms.aspx>

If you have come into contact with a COVID-19 Positive person:

Persons identified by the public health authorities as close contacts of confirmed cases and who do not live with confirmed cases will be put under mandatory quarantine for 14 days from the last day of contact with the person who tested positive, provided they do not develop any symptoms related to Covid-19. This is enforceable by law.

Contact, in golf terms, means if you have played golf with, shared an after game drink with, or come into close contact with someone who has subsequently tested positive, you should call 111 immediately and follow the advice you are given.

Full details at this link: <https://deputyprimeminister.gov.mt/en/health-promotion/covid-19/Pages/quarantine.aspx>

If you have tested COVID-19 Positive:

You will be guided by the Public Health authorities as at this link: <https://deputyprimeminister.gov.mt/en/health-promotion/covid-19/Pages/testing-positive.aspx>

How to obtain a swab test:

Swab tests are done at the testing centres **ONLY** by appointment.

To book your swab test call the **Public Health Helpline on 111 or +356 21324086** if you have a foreign number.

Full details at this link: <https://deputyprimeminister.gov.mt/en/health-promotion/covid-19/Pages/getting-tested.aspx>

Your responsibility to the RMGC and fellow members:

As soon as you are aware of any COVID-19 situation as described in the foregoing, inform all your known contacts for the relevant time period so they call 111 and take whatever action is advised. Inform the General Manager straightaway so he can refer back to contact tracing data to protect other members and put in place any additional H&S measures that may be needed. Once you have your swab test result, be sure to inform all the same parties of the outcome, for their own protection.
