

Algorithmics Malta

International programmings school for children and teenagers

Offer for:
RMGC members

Course for children aged 6-17

Kids can start studying with Algorithmics at any age. When they finish their course, they can move on to the next one to continue their studies in the new academic year

Course name	Age:	6 – 7	8 – 9	10 – 11	12 – 13	14 – 15	16 – 17
Python pro (2 years)							
Unity Game Design							
Python Start (2 years)							
Building Websites							
Game Design							
Graphic Design							
Video Content Makers							
Visual Programming							
Holiday Camp							
Digital Literacy							
The Coding Knight							

Courses available now

Digital Literacy

For ages 7-9

Kids learn how to use modern programs and apps for learning and living

Visual programming

For ages 9-10

Programming basics taught using the Scratch programming language for kids. Students get to create their own games and cartoons.

Game Design

For ages 10-11

Students make games in Roblox and take their first step towards a sought-after profession

Video content makers

For ages 9-11

Students learn to make high-quality video content, feel confident in front of a camera and promote their own channels on YouTube and TikTok

Digital Design

For ages 9-14

Students get to know the world of visual communication, from the basic tools used by digital designers to the secrets of controlling a user's attention

Unity Game Development

For ages 12-16

Students create their own worlds using 3D modeling and programming

Building websites

For ages 11-12

From ideas and design models to development and layout: website creation skills as a competitive advantage

Python Start

For ages 12-13

Kids learn to code in Python — one of the most popular programming languages in the world.

Python Pro

For ages 14-17

Kids test their skills in the most future-oriented IT fields, from game development to machine learning expertise

What are our classes like?

- **100% online** through our cutting edge 24/7 platform
- **Certified Teachers** who dedicate personalised attention to each student
- **Small Groups of up to 8** students
- Classes last for **90 minutes** with a break in the middle
- **1-2 times a week**, at a time and on a day that's convenient to you

The teacher explains the material in an interesting way and **gets the kids interested in the new topic**

Your child won't ever fall behind in the program: **any classes they miss can be taken on the platform, 24/7**

You won't need to check any homework: at Algorithmics, **there are no obligatory homework tasks**

You'll be given **access to the platform** and will be able to follow your child's progress

Everyone will enjoy it!

We learn by having fun

A storyline about adventures in space helps us to retain the attention of students who find concentrating difficult

We nurture mathematical thinking

By studying the basics of programming and algorithms, we deepen students' knowledge of maths

We find their motivation

We don't do tests, instead we apply what we've learned in practice straight away, by creating projects and bringing our own little dreams to life

Why do parents choose Algorithmics?

- ◆ The curriculums for all our courses are developed by a team of professional **educators, pedagogues and psychologists**
- ◆ Algorithmics' **teachers** talk to the kids in understandable language, love their subject and know how to captivate children
- ◆ Our **IT learning platform** is 3 in 1: it's a smart task book, an environment for creating projects, and a community of shared interests

Algorithmics

International School of Mathematics
and Programming **for children aged 6 to 17**

😊 1,100,000 graduates

🚩 90+ countries

Exclusive offer for RMGC Members

- **Free introductory lesson**
- **15% discount for any RMGC Members**
when paying for the full course, 10% when paying monthly.
- **20% sibling discount**
when paying for the full course, 15% when paying monthly.

Algorithmics

Book a place in one of our groups

Identify yourself as an **RMGC member** and claim your discount.
